

Daily Progress Planner

Overview

The **Daily Progress Planner** is a web-based application designed to help users track, manage, and plan their daily tasks and writing goals. It features a calendar for task scheduling, sections for completed and pending tasks. The app is built using **HTML**, **CSS**, and **JavaScript**.

Features:-

1. Interactive Calendar

- Displays the current month, selectable days, and highlights the current day.
- Allows navigation between months.
- Enables event selection and display for specific days.

2. Event Management

- Create, modify, and delete events.
- Mark events as completed.
- Automatic categorization of events as "Pending," "Completed," or "Failed."

3. Sidebar Navigation

- Navigate between different sections (e.g., Home, About, Activity Summary).
- Responsive design to hide/show the sidebar on smaller screens.

4. Tables for Event Summaries

- View all events, pending events, completed events, and failed events in separate tables.

5. Dark Mode

- Toggle between light and dark themes.

6. Responsive Design

- Optimized for both desktop and mobile viewing.
- Easy-to-use navigation and clean layout.

Tech Stack

- **HTML:** Structure and layout of the app.
- **CSS:** Styling and responsiveness.
- **JavaScript:** Interactivity and functionality.

How to Use:-

❖ Calendar Navigation

- The current month and year are displayed at the top of the calendar.
- Use the navigation buttons to move forward or backward through months.
- Click on any day in the calendar to view events for that date.

❖ Event Management

+ Add an Event

1. Fill out the following fields:
 - **Event Name:** Enter the name of the event.
 - **Start Time:** Specify the start time of the event.
 - **End Time:** Specify the end time of the event.
2. Click the Add Event button.
3. The event is added to the selected date and saved in local storage.

+ Modify an Event

1. Click the Edit (pen icon) button next to an event.
2. Enter the new details (event name, start time, and end time).
3. Ensure the start time is earlier than the end time.
4. The event is updated and re-sorted based on start time.

+ Delete an Event

1. Click the Delete (trash icon) button next to an event.
2. Confirm deletion. The event will be removed from the calendar.

+ Mark an Event as Completed

1. Click the Mark Done (checkmark icon) button next to an event.
2. Confirm the completion status.
3. The event will be marked as "Completed" and moved to the "Completed" table.

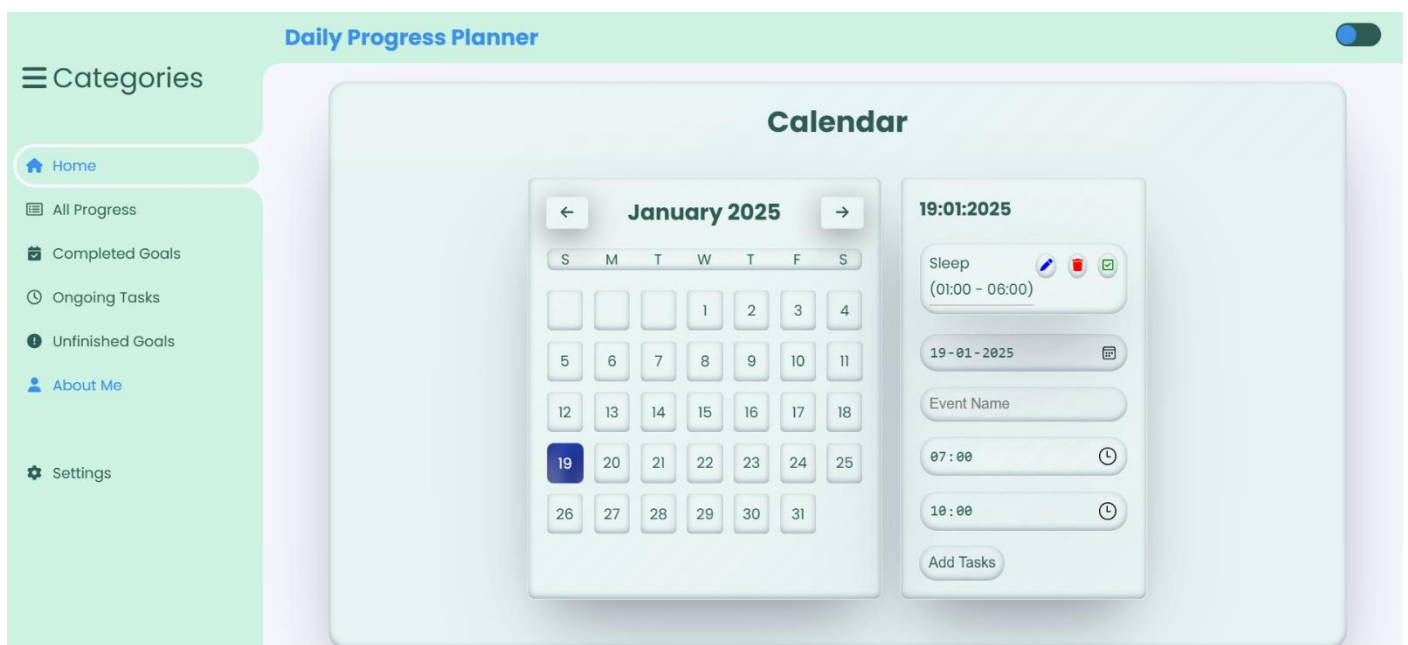

❖ Event Categories

1. **Pending Events:** Events that are upcoming or not yet marked as completed.
2. **Completed Events:** Events marked as completed by the user.
3. **Failed Events:** Events whose end time has passed and were not completed.
